SKILLS SUMMARY

Languages:	Java, C++, Python, C
Frameworks & Libraries:	FastAPI, Next.js, Flask
Databases:	MYSQL, SQL
Cloud / DevOps:	AWS, Docker, CI/CD, GitHub Actions, Linux
Developer Tools:	Git, GitHub
Core Subjects:	Data Structures & Algorithms, Cloud Computing, DevOps
Soft Skills:	Problem Solving, Adaptability

PROJECTS

Revenue Rescue Agent – AI-Powered Payment Recovery System | GitHub — Aug 2026 – Sep 2026

- **Developed** an AI-assisted revenue recovery system to autonomously process and recover failed payments safely.
- **Implemented** FastAPI, Next.js, Claude AI diagnosis, deterministic policy gates, simulations, audit trails, and metrics.
- **Enforced** recovery safety through retry limits, high-value escalation, policy overrides, and comprehensive decision tracing.

Tech Stack: Python, FastAPI, Next.js, Claude AI, React, TypeScript, REST API

Hospital Management System – Full-Stack Healthcare Management Platform | GitHub — Jun 2026 – Jul 2026

- **Developed** hospital management system to digitize patient records, appointments, billing, prescriptions, and clinical workflows.
- **Implemented** role-based modules using Python, Flask, SQLAlchemy, MySQL, Jinja2, HTML, CSS, JavaScript, and Flask-Login.
- **Containerized** application with Docker and Docker Compose, using Gunicorn deployment and Flask-Migrate for operations.

Tech Stack: Python, Flask, SQLAlchemy, MySQL, HTML, CSS, JavaScript, Docker

Smart Expense Tracker – Cloud-Based Personal Finance Management System | GitHub — Apr 2026 – May 2026

- Developed cloud-native Smart Expense Tracker to automate 50/20/30 budget allocation using AWS serverless architecture.
- Implemented expense CRUD, Cognito authentication, Chart.js visualizations, Python Lambda, API Gateway, RDS MySQL, PyMySQL.
- Secured user financial data through multi-tenant database isolation, token-based sessions, and controlled Lambda connections.

Tech Stack: Python, AWS Lambda, API Gateway, Cognito, RDS MySQL, JavaScript, Chart.js

TRAINING

DevOps Fundamentals – Code to Deployment — Jun 2026 – Jul 2026

- **Developed** foundational DevOps practices to streamline software delivery through automation, collaboration, and deployment workflows.
- **Implemented** CI/CD pipelines using Git, GitHub, Jenkins, Docker, Linux, and GitHub Actions efficiently.
- **Optimized** development workflows by applying version control, containerization, automation, and continuous integration practices.

Tech Stack: Git, GitHub, Docker, Jenkins, GitHub Actions, Linux, CI/CD

CERTIFICATIONS / CERTIFICATES

Oracle Cloud Infrastructure Certified AI Foundations Associate | Oracle — Aug 2026
AWS Academy Graduate - Cloud Foundations | AWS — May 2026
Hands-on Introduction to Linux Commands and Shell Scripting | Coursera — Dec 2025

EDUCATION

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology / Computer Science & Engineering — Jul 2024 – Jun 2028

Narayana Junior College — Hyderabad, Telangana
Senior Secondary (Class XII) — Jun 2022 – Mar 2024

St. Mary's High School — Sultanabad, Telangana
Matriculation (Class X) — Aug 2021 – May 2022
